TRANSFORMING CHALLENGES INTO OPPORTUNITIES WITH CUTTING EDGE SOLUTIONS AND ACCELERATORS

Agentic Claims Pre-authorization

Aaseya's Agentic Claims Pre-Authorization leverages Pega Platform agents for Conversation, Knowledge, Coaching and automation of intake, decisions, and guidance processes; reducing cycle time by 50%, boosting CSR productivity by 40%, enhancing NPS by 20%, and lowering operational costs.

Legacy Transformation - SAP Agility

Makes a customer's SAP Enterprise more agile while migrating to S/4HANA. Use Pega Case Management to accelerate modernizing complex workflows without rewriting the core. Go from concept to functional prototype, with roadmap and integration architecture, in under 2 weeks with zero upfront commitment.

Agentic Customer Service Buddy

Powered by Pega's Agentic AI, the Agentic CSR Buddy acts as a real-time co-pilot, guiding conversations, enhancing CSR knowledge, and automating tasks using GenAI Coach, Knowledge Buddy, Automate, and Analyze for accurate, efficient service.

Enterprise Inspections Redefined

Empower Inspectors to conduct next-generation agentic inspections effortlessly with AI driven mobile devices. Automate comments, summary reports, configurations, and tasks, assisted by Pega's Agentic AI, Doc GenAI, Knowledge Buddy, Coach using Aaseya's enterprise inspection platform.

AI Auto-healing Test Automation

An intelligent accelerator that uses AI to generate, execute, and auto-heal test cases in real-time, minimizing maintenance & improving resilience. Enables natural language test creation and adapts dynamically to UI changes, streamlining low-code test automation.
